

Thinking of starting a Local Chapter of the Special Education Association (SEA)??

This is all it takes:

- A start up committee of 5 to 6 teachers
- A meeting time and place to elect an executive
- A membership open to all “special educators” - many SEA chapters are a combination of Learning Assistance and Special Education teachers
- Contact with the SEA Membership/Chapter Coordinator
- A constitution (examples available from the Membership/Chapter Coordinator)

Local Chapters are provided with:

- A financial incentive of \$100 for newly formed chapters and the reinstating of chapters that have been inactive for more than a year
- A yearly grant of \$100 for each local chapter that is recognized as an SEA Chapter – must submit a Chapter Grant Form
- The SEA publication, “Crosscurrents” – an informative professional magazine emailed to provincial members
- Financial support for chapter delegate(s) to attend the Crosscurrents Conference and work as a Host/Cohost and assist with other duties
- Opportunities to participate and share in Professional Development activities
- Support for Regional or Local Conferences – must be approved to qualify for funding
- A chance to liaise with other PSAs, the BCTF, universities, government ministries, and other organizations/businesses with related interests

Let us help you start a local Chapter!!
